

Company Environmental Policy Statement

ENVIRONMENTAL POLICY

Jayrow Helicopters is committed to providing a workplace which is protective of the environment in which it works.

All Environmental issues are managed and supported by Senior Management and affected by all personnel in a manner that complies both legislatively and in accordance with Company Policy.

Jayrow aims to minimise energy wastage and improve the efficiency with which energy is used, within the constraints of operational demand. Where technically feasible and economically justifiable, the company uses renewable and sustainable fuel sources.

The Company is committed to continuous improvement in the elimination of environmental hazards and in maximising the awareness of all personnel.

This statement is displayed in all work locations.

Grahame Casey
